

Uday Singh Kushwah

AI & LLM Systems Engineer | Domain: Artificial Intelligence & Agentic Workflows

Email: candidate@example.com | Location: Remote

Professional Summary

AI Engineer specializing in Agentic AI architectures, LLM orchestration, Multi-Agent Systems, RAG pipelines, and Vector Databases using Python, TypeScript, LangGraph, and OpenAI / Gemini APIs.

Core Technical Skills

- Agentic AI Frameworks: LangGraph, OpenAI Agents SDK, CrewAI, AutoGen
- LLMs & Embedding: GPT-4o, Gemini 1.5/2.0, Anthropic Claude, Llama 3
- Vector Search & Storage: Qdrant, Pinecone, ChromaDB, PGVector
- AI Infrastructure: Python, FastMCP, Docker, Langfuse, OpenTelemetry

Key Accomplishments

- Built autonomous multi-agent pipelines for automated workflow processing.
- Optimized RAG retrieval precision by 35% with hybrid search and reranking.
- Deployed production agent frameworks with evaluation and memory persistence.
